

LINE YOUR POCKETS WITH CASH!

Participate in JASK's Amazing Spiff Program!

Through technology consolidation, enhanced AI and machine learning, the JASK Autonomous Security Operations Center (ASOC) platform automates the collection, correlation and analysis of alerts, helping SOC analysts focus on highest-priority threats, streamlining investigations and delivering faster response times.

Deployed in hours and continuously updated through the cloud, JASK injects an agile sensing and investigation layer into existing technologies, empowering analysts to make informed decisions faster and with more precision.

JASK is looking to accelerate your sales pipeline development. In addition to the fantastic discounts offered to our Solution Providers, we want to put cash directly into your hands. The following rewards are available:

- **\$250 for all qualified deal registrations**
- **\$500 each to the Sales Rep and SE for a qualified POC**
- **\$1,500 each to the Sales Rep and SE for any deal that closes by June 30, 2018***

Over \$1,000,000 (net) to JASK?! JASK will deliver a Bitcoin to both the sales associate and the sales engineer responsible for the deal.

All contests have rules, and ours is no exception:

- All deals must be submitted via JASK Deal Registration guidelines to **dealreg@jask.ai**.
- Deal registrations and POC's must be qualified and approved by the JASK Sales team
- Minimum deal size is 1,000 employees
- * JASK will pay an additional \$1,500, each for deals over 10,000 employees
- ** Cash substitute is available, with the amount to be determined by the price of Bit Coin on the day the deal closes.
