Secure Digital Solutions

Managing the Business of Information Security

Since 2005, our team of experts has partnered with companies to manage and improve their information security programs. Secure Digital Solutions consistently earns credibility and trust because of three simple ideas:

Enable our clients to achieve business goals by empowering them to effectively manage and secure their information.

Provide a combination of information security, privacy, and IT compliance services tailored to client requirements which deliver lasting value.

Partner with clients using proven vendor neutral methodologies and procedures.

Security Program Strategy & Management

Whether you're starting a new governance program or looking to mature your current one, SDS will partner with you to establish a strong and successful "culture of security" in your organization.

- Virtual Information Security Officer
- Security Program Assessment & Roadmap
- Continuous Improvement through Managed Services Engagement
- Security Awareness and Training
- Policy and Standards Development

Enterprise Risk & Compliance

With rapid advances in technology and an explosion in workforce connectivity and mobility, the business landscape has transformed almost overnight. The universe of cyberthreats now ranges from foreign governments to the disgruntled system administrator employed by one of your company's critical vendors.

- Vendor Risk Management Services
- Incident Response Plans
- Policy and Standards Development
- Compliance Assessments (PCI DSS, HIPAA, ISO 2700x)
- IT Audit
- Penetration Testing

Data Privacy

The team at SDS offers complete Data Privacy Management Services. We can partner with you to develop and enhance a robust data privacy program aligned with your organization's business needs and customer expectations.

- Virtual Privacy Officer
- Privacy Program Development
- Privacy Assessments
- GDPR (General Data Protection Regulation) Preparedness
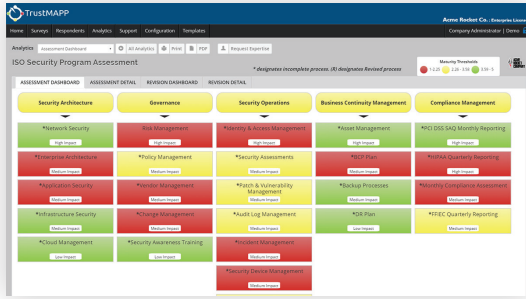

SDS Approach to Service

Business Driven – SDS aligns information security controls with business objectives to create a more efficient and secure business practice.

Mature Processes – SDS team of experts combine proven methodologies to provide a foundation for meaningful objectives and project deliverables.

Vendor Independence – SDS does not resell products; our clients receive unbiased analysis and recommendations aligned to business needs. We have no vested interest beyond what best fits our clients.

SDS Team

The SDS team brings a minimum of ten years experience to each client engagement. Our consultants are industry-certified with a proven track record aligning information security to drive business outcomes.
